

# Nick Stanko

Full Stack Web Developer

## Profile

- Developer focused on TypeScript, React, Shadcn UI, Chakra UI, Next.js, Foundation, Node.js and Laravel.
- DevOps experience with Akamai, DigitalOcean, Oracle, AWS. Deploying with Laravel Forge to Ubuntu servers. Built a deployment tool to accelerate our server and self hosted apps deployments: [transformable.app](https://transformable.app)
- 3twenty9 is a small & mighty design studio located in historic Bellefonte, Pennsylvania. Our focus is on web development and design and the standards that drive modern web applications.

## Experience

### 3twenty9 Design - Bellefonte, PA

Full Stack Web Developer - full-time remote

Mar 2015 - Present

Responsible for all development and deployment tasks involved with launching cross-browser responsive web solutions and native mobile apps. We leverage open source projects like React, Shadcn UI, Chakra UI, Next.js, Payload CMS, Bootstrap or Foundation, Laravel with PyroCMS to achieve profitable custom solutions for our clients. Integrations with APIs like Stripe and RETS MLS feeds. Enjoy developing web solutions for national and local businesses.

### AccuWeather Enterprise Solutions - State College, PA

Front End Architect & AngularJS Developer - full-time remote contract

Dec 2015 - Mar 2017

- Developed weather portal framework driven by AngularJS and Bootstrap 3.
- Lead developer on key architecture components: responsive layout, dashboard, configurable components, weather variables, charting, alerts, places, wizards.
- Integrated range of APIs provided by AccuWeather and other vendors like Brightcove and ESRI.
- Collaborated remotely with AES and other teams nationwide.

### InfoMC - Conshohocken, PA

Senior Front End Web Developer - full-time on-site

May 2007 - Oct 2014

Developed enterprise web applications in JavaScript & jQuery. The Inedo Healthcare Management System was my primary focus, it transforms traditional healthcare management into proactive population healthcare management by offering all stakeholders a web-based set of tools for managing care.
